# BEOPLAY H95

## Adaptive ANC headphones

- Celebrating 95 years of heritage in sound, design and craft excellence. Beoplay H95 is crafted for the ultimate listening experience with long lasting comfort and effective Active Noise Cancellation.
- Beoplay H95 offer exceptional sound quality through customised titanium drivers and our most advanced Adaptive Active Noise Cancellation yet. Immerse yourself in pure sound and captivating silence as you step into your private soundscape.
- Beoplay H95 deliver a perfect balance between aesthetics and performance. The selection of high-end materials is curated to elevate every aspect of interaction - from the precise aluminium dials on the housing to the magnetically detachable lambskin ear cushions that reveal the beautifully crafted speaker housing.

£879

# BEOSOUND A1

## Waterproof Bluetooth speaker

- Longer playtime, fully waterproof, integrated voice assistant, and speakerphone. Meet the upgraded choice for great sound on the go.
- No matter where you go, who you meet, or what you set out to do, bring beauty to the moment. The upgraded Beosound A1 is a refined handful of musical bliss. Designed to be shared by everyone around - for hours on end.
- The durable Beosound A1 is waterproof and completely resistant to dust and sand. From the beach to the bathtub the music will keep playing wherever you bring it - or accidentally drop it.
- Enjoy crystal clear voice calls thanks to the superior speakerphone performance. Bluetooth 5.1 and three internal microphones give you the very best connections for those online meetings and hands-free calls.

£239

# BEOPLAY EX

## NEXT-GEN WIRELESS EARBUDS

- As versatile as they are beautiful, these earbuds with wireless charging case and active noise cancellation bring deep sound and snug comfort in one sleek package.
- Beoplay EX fits. With your lifestyle and your ears. An all-new ergonomic design gives you complete comfort right out of the case, while soft tips let you listen for hours without fatigue. Whether you're walking, running or jumping, the stick silhouette ensures stability, while staying snug and flush to your ears.
- Turn a loud train ride into a moment of focus. Or make your run a meditative experience. EX monitors ambient outside sound and adapts to cut it out, so you can enjoy distraction-free listening and the highest quality calls - wherever you are. Want to let the world in? Transparency Mode takes care of that in just a tap.

Beauty and passion to your  
music

- One-point music system and contemporary design icon with powerful sound and customisable design.
- Beoplay A9 fills any room with detailed Bang & Olufsen Signature Sound thanks to its powerful 480-watt digital amplifier system. Built-in room adaptation adjusts the sound perfectly to its surroundings, so the days of hiding your stereo are over.
- We designed Beoplay A9 like a beautiful piece of furniture — with carefully selected Materials and uncompromising attention to detail. The result is an iconic piece of music design you can put on display anywhere. You can experience your music the way the artists intended.
- Designed to change with your own lifestyle. You are free to place Beoplay A9 in a corner, out in a room or hang it on a wall with the optional wall bracket. Naturally, the built-in room adaptation switch ensures that your speaker always sounds as good as it looks.

£3,199

# BEOSOUND 2 3<sup>rd</sup> GEN

Home is where the music is

- Powerful multiroom speaker sounding every bit as beautiful as it looks. Captivating no matter where you place it or how you use it.
- Beosound 2 delivers stellar and truly powerful sound performance. Applying our Acoustic Lens Technology into the conical speaker body creates a 360-degree sound experience that fills the entire room from anywhere you place the speaker.
- Beosound 2 is designed for flexibility. Delivering the morning news from the kitchen table or playing discreetly from the living room floor. With its clean lines and small footprint, it has an adaptable design that fits in everywhere in your home.
- Crafted in high-grade aluminium with incredible attention to detail. But our material choice goes well beyond aesthetics. It also provides superior acoustic properties thanks to its material stiffness and seamless surfaces that eliminate any distortion of your sound.

£2,649

# BEOSOUND BALANCE

Innovative, wireless home  
speaker

- A wireless speaker with a dynamic acoustic performance designed to be positioned up against the wall on a shelf or side table in your home. Impressive sound compared to its size.
- Designed to be positioned up against the wall on a shelf or side table, Beosound Balance delivers carefully controlled beams of sound for a clear acoustic experience from the front and rich sound enhancement at the back. The result is an impressively big acoustic experience compared to its size.
- Tactile user-interaction experience and light-through-aluminium for subtle look and a touch of magic with proximity sensors built-in to welcome you when you approach Beosound Balance for interaction - so the controls only appear when needed. When you walk away from BeoSound Balance, the controls dim once more leaving only the well-crafted aluminium surface visible.

£2,999

# BEOSOUND LEVEL

## Portable WiFi Speaker

- Superior sound in a minimalist, portable design with up to 16 hours of battery life. Beosound Level reinvents flexible home audio.
- Any room. Any position. Any moment. Beosound Level lets you move with your music in new ways at home, without ever compromising on sound quality. Enjoy a flawless listening experience in beautiful, portable form.
- A powerful five-driver set up delivers immersive, full-range sound that adapts based on the speaker's orientation. Discover dynamic bass when laid flat, unmatched clarity when upright or an enveloping soundstage when wall mounted. Active room compensation enables Beosound Level to adapt audio quality to complement any space - whether big, small, busy or sparse. The result: a clear, detailed listening experience at all times.
- On its back, Beosound Level becomes the focal point. The speaker automatically expands the width of the sound to reach everyone, everywhere in the room.
- Enjoy detailed and diffused sound when Beosound Level is placed upright. The speaker opens up the soundstage for a rich stereo experience in front of it.
- An optional wall bracket elevates Beosound Level to a new place. When hung on the wall, the speaker projects flawless, room-filling sound while charging.

# BEOLAB 50 Classic floor standing speakers

- A luminous celebration of golden tones with light oak to bring brightness to any space
- A loudspeaker that exceeds expectations time and time again. Finely tuned to provide balanced, rich audio whether listening to music or watching a movie. Prepare for exceptional performances of music and cinematic soundscapes, powered by patented Bang & Olufsen technology.
- With an eye-catching geometric design, BeoLab 50 embraces natural colours and contours to create a beautiful blend of contemporary styles. The Acoustic Lens majestically ascends before performing, creating a magical moment that sets the stage for an extraordinary listening experience.
- Enjoy high quality sound in your home entertainment set up with an active pair of loudspeakers designed to match your desires. Extraordinary cinematic experiences, carefree music as a backdrop to your day-to-day or intense, audiophile enjoyment - all are catered to by this powerful speaker.

£41,650

# BEOLAB 90

## Vision of sound

- Perhaps the world's most advanced digital loudspeaker. Unprecedented power and acoustic performance adapting seamlessly to your living space and listening modes.
- Three years in the making, BeoLab 90 is the culmination of our wildest dreams. And with no less than 8,200 watts per speaker, this is by far the most powerful sound experience we have ever created.
- A floor speaker with the size and complexity of BeoLab 90 is quite something to manufacture. The top tower is cast in 10mm thick plastic, and the main cabinet is solidly cast in aluminium. These are fitted together and all the amplifiers and drivers are mounted, the software is then installed and as the last step the "naked" loudspeaker is clad in the semi-transparent fabric and the aluminium crowns are installed.

From £110,000

# BEOVISION HARMONY 77"

Watch the magic unfold

- Designed for the ultimate cinematic and immersive audio visual experience. The new BeoVision Harmony 77" support 4K resolution.
