CATALOG SPRING - SUMMER

Pour la collection Printemps/Été 2024, Judith Milgrom célèbre l'élégante simplicité de la Parisienne, l'essence même de la femme Maje. La gamme estivale présente des pièces finement travaillées qui transcendent les tendances éphémères pour devenir de nouveaux indispensables.

Cette collection revisite avec une approche moderne les codes parisiens et façonne des silhouettes versatiles en utilisant des textiles légers, créant ainsi une élégance décontractée. La collection commence avec des pièces inspirées des années 1990, puis évolue vers des créations féminines et dynamiques, parfaites pour les soirées d'été

In the upcoming Spring/Summer 2024 season, Judith Milgrom crafts a collection that serves as a heartfelt homage to the timeless allure of Parisian chic, embodying the essence of the Majewoman. The looks are comprised of exquisite garments that not only accentuate prevailing fashion moments but also introduce iconic staples to seamlessly integrate into one's wardrobe. This collection resonates with an unwavering commitment to contemporary trends with a Parisian twist, empowering women to radiate confidence and embrace every situation with grace and beauty.

The silhouettes are evolving, the fabrics are natural and light and the style is effortlessly chic, beginning with pieces that embody the 90's code with a foundation of both neutral and bold shades and continue into trending floral patterns as we transition into exuberantly feminine ensembles for those final days of summer
