SIGNATURE PIECES

SHEARLING, THE ULTIMATE LUXURY PIECE

A **luxurious** and **on-trend** material, shearling is double sided, one side is wool fleece and the other is skin. The latter has a “**smooth**” (leather) or “**velvet**” (suede) finish. This makes it the perfect combination of a leather and a fur coat, especially since almost all Gerard Darel's shearlings have the distinction of being **reversible**! Ideal for the cold, **extremely soft and supple**, they combine nuance and texture for an **original and timeless look**.

Gerard Darel shearling is amongst the best **value for money** on the market. **The skins are selected with the utmost care**. They are then processed in the **best tanneries**, both sides are perfectly cut to make them reversible. Each piece is **unique**. They are **luxury pieces** that are kept for life and are meticulously cut for **perfect drape**.

This season, shearling is available in a **short coat**, a **cape coat** and a **straight coat**. **Versatile**, it is detailed with **detachable zippered hoods**, tailored collars and shawl collars. It is also available in a beige collarless version as part of the winter white trend.

WHAT'S NEW: curly fleece in pretty shades of gray with a tone-on-tone reversible hood.
